PROFESSIONAL SUMMARY

Senior Operations and Commissioning Professional with more than 20 years of experience in refinery, petrochemical, gas processing, and oil & gas operations. Extensive expertise in pre-commissioning, commissioning, startup, shutdown, troubleshooting, operational stabilization, and process optimization of refinery and utility systems.

Experienced in CDU, VRU, GSU, LPG Treating Systems, fuel gas systems, utilities, and DCS/SCADA operations. Strong field exposure supporting process operations, startup activities, operational readiness, troubleshooting, and coordination with engineering and maintenance teams during project execution phases.

Skilled in process monitoring, operational performance evaluation, PFD/P&ID; interpretation, startup sequence execution, and refinery process system stabilization. Familiar with process engineering coordination, operational support activities, and refinery process optimization initiatives.

CORE COMPETENCIES

Gas Processing Operations	Refinery Operations	Pre-Commissioning & Commissioning
Startup & Shutdown Operations	Process Troubleshooting	Operational Readiness
Refinery Process Stabilization	Utilities & Offsite Operations	LPG Treating Systems
Fuel Gas Systems	CDU / VRU / GSU Operations	DCS / PLC / SCADA Systems
Process Safety & HSSE	PTW / LOTO Systems	PFD & P&ID Interpretation
Compressors & Pumps Operations	Shutdown & Turnaround Support	Process Optimization Support

PROFESSIONAL EXPERIENCE

Operations & Maintenance Specialist | EPROM – Petrosannan Oil & Gas Production | Jun 2025 – Present

- Supervise daily operations and maintenance activities for oil & gas production facilities.
- Coordinate with operations, maintenance, and engineering teams to ensure safe and reliable plant operations.
- Support troubleshooting and process optimization activities for production systems.
- Monitor operational performance and support operational continuity initiatives.
- Ensure implementation of PTW, LOTO, and HSSE procedures.
- Participate in operational readiness and maintenance coordination activities.

Assistant Operations Manager – Pre-Commissioning, Commissioning & Startup | EPROM / PETROJET – NPC CDU-4 & VRU-3 Project | Jan 2022 – Jun 2025

- Participated in pre-commissioning, commissioning, startup, and stabilization activities for CDU-4 and VRU-3 refinery units.
- Supported startup sequence execution and refinery operational stabilization activities.
- Monitored refinery process systems through DCS and SCADA platforms during startup operations.
- Coordinated startup and shutdown activities with operations, maintenance, and engineering teams.
- Supported loop checks, functional testing, troubleshooting, and operational verification activities.
- Assisted in reviewing operational procedures, PFDs, and P&IDs; during commissioning phases.
- Participated in refinery process troubleshooting and startup optimization support.

Operations, Commissioning & Startup Supervisor | EPROM – MIDOR Refinery Expansion Project | Jul 2008 – Jan 2022

- Supervised commissioning and startup activities for refinery process and utility systems.
- Operated and monitored refinery systems using DCS and SCADA platforms.
- Participated in troubleshooting, startup stabilization, shutdown activities, and operational support initiatives.
- Coordinated field operations activities during startup and commissioning phases.
- Supported operational readiness, system handover, and startup verification activities.
- Assisted engineering and operations teams in maintaining stable and safe refinery operations.
- Participated in refinery utilities and process systems operational monitoring activities.

Control Operator | Alexandria Fiber Company (AFCO) – Aditya Birla Group | Sep 2004 – Jul 2008

- Operated polymer and solvent recovery systems using DCS platforms.
- Monitored process alarms, operational conditions, and plant performance.
- Supported troubleshooting and operational continuity activities.
- Assisted in maintaining stable process operations and safe operating conditions.

TECHNICAL SKILLS

- Yokogawa CENTUM VP / CS3000
- Emerson DeltaV
- Honeywell DCS
- Foxboro Systems
- Schneider Electric Systems
- Rockwell Automation FactoryTalk View SE
- PLC & SCADA Systems
- Process Operations Monitoring
- PFD & P&ID; Interpretation
- Process Troubleshooting
- Operational Readiness Support

EDUCATION

- PhD – Environmental Sciences | 2025 | Excellent Grade
- Master's Degree – Environmental Sciences | 2017 | Excellent Grade

- B.Sc. Chemistry – Alexandria University | 2004 | Honor Degree

LANGUAGES

- Arabic — Native
- English — Professional Working Proficiency
