

ABD EL FATTAH ALI ELEWA

Operations & Commissioning Manager | Oil & Gas | Refinery | Gas Processing

Egypt | +20 101 901 7235 | Bahrain: +973 3702 6658 | chem.abdelfattah83@gmail.com

PROFESSIONAL SUMMARY

Senior Operations and Commissioning Professional with more than 20 years of experience in refinery, petrochemical, gas processing, and oil & gas operations. Extensive expertise in pre-commissioning, commissioning, startup, shutdown, troubleshooting, and operational stabilization of refinery and utility systems. Experienced in CDU, VRU, GSU, LPG Treating Systems, fuel gas systems, utilities, and DCS/SCADA operations.

CORE COMPETENCIES

- Refinery Operations
- Commissioning & Startup
- DCS / PLC Operations
- CDU / VRU / GSU Operations
- Utilities & Offsite Operations
- Process Troubleshooting
- Compressors & Pumps Operations
- PTW / LOTO Systems
- HSSE & Process Safety
- Operational Readiness
- Shutdown & Turnaround Support
- PFD & P&ID Interpretation

PROFESSIONAL EXPERIENCE

Operations & Maintenance Manager | EPROM – Petrosannan Oil & Gas Production

Jun 2025 – Present

- Supervise daily operations and maintenance activities for oil & gas production facilities.
- Coordinate with operations, maintenance, and engineering teams to ensure safe and reliable operations.
- Support troubleshooting and process optimization activities.
- Ensure implementation of PTW, LOTO, and HSSE procedures.

Assistant Operations Manager – Pre-Commissioning, Commissioning & Startup | EPROM / PETROJET – NPC CDU-4 & VRU-3 Project

Jan 2022 – Jun 2025

- Participated in pre-commissioning, commissioning, startup, and stabilization activities for CDU-4 and VRU-3 refinery units.
- Monitored refinery systems through DCS and SCADA platforms during startup operations.
- Supported loop checks, functional testing, and troubleshooting activities.
- Coordinated startup and shutdown activities with operations and maintenance teams.

Operations, Commissioning & Startup Supervisor | EPROM – MIDOR Refinery Expansion Project

Jul 2008 – Jan 2022

- Supervised commissioning and startup activities for refinery process and utility systems.
- Operated and monitored refinery systems using DCS and SCADA platforms.
- Participated in troubleshooting, startup stabilization, and shutdown activities.

Control Operator | Alexandria Fiber Company (AFCO) – Aditya Birla Group

Sep 2004 – Jul 2008

- Operated polymer and solvent recovery systems using DCS platforms.
- Monitored process alarms and operational conditions.
- Supported troubleshooting and operational continuity activities.

TECHNICAL SKILLS

- Yokogawa CENTUM VP / CS3000
- Emerson DeltaV
- Honeywell DCS
- Foxboro Systems
- Schneider Electric Systems
- Rockwell Automation FactoryTalk View SE
- PLC & SCADA Systems

EDUCATION

- PhD – Environmental Sciences | 2025 | Excellent Grade
- Master's Degree – Environmental Sciences | 2017 | Excellent Grade
- B.Sc. Chemistry – Alexandria University | 2004 | Honor Degree

LANGUAGES

- Arabic — Native
- English — Professional Working Proficiency
